

Lathe Cutter

HC7002 Duplex Lathe Cutter (2 shafts+1 blade)

Application: Suitable for cutting various adhesive tapes.
(2 shafts cutting a time, double on production capacity)

Specification: Machine Width: 1.0M/1.3M/1.6M Max. Cutting O.D: Ø160mm
Cutting Core O.D: Ø3" Min. Cutting Width: 3mm

Feature:

1. Width setting is controlled by servo motor with ball screw and guide rails to make accuracy movement.
2. All functions are operated under LCD touch panel control, which is operator friendly and easy for data setting.
3. Central control system is PLC unit, it can cut various sizes on one log roll by changing modes automatically.
4. Knife feeding is controlled by hydraulic system, the cutting speed is adjustable in high/low.
5. The knife carriage is fixed type. it has one blade to cut on 2 shafts a time, it needs to change different type of blades to make flat roll surface when cutting different widths, it is recommended to purchase auto knife angle adjustment if there will be lots of sizes on production.

Optional Parts:

1. Equipped with knife angle manual/auto adjustment, cutting angle can be changed from -8 to +8 degree automatically for making roll surface smoothly.
2. Knife feeding is controlled by servo motor.
3. Other Size Cutting Shaft: It can be made as per the required core I.D.
4. Cutting Supporter: For supporting log roll when cutting core below 38mm.
5. Safety Cover: To protect operator during the production.
