

# Slitter Rewinder

## HCS3320 Duplex Center Slitter Rewinder

**Application:** 2 shafts center type winding, Suitable for slitting/rewinding various Papers, Soft films.

**Specification:**

Machine Width:	1.0M/1.3M/1.6M	Max. Unwind O.D:	Ø1000mm
Rewind Core I.D:	Ø3"	Max. Rewind O.D:	Ø650mm
Min. Slitting Width:	30mm	Machine Speed:	200M / Min

### Feature:

1. Equipped with separated shaft type unwind base, auto web guide and auto unwind tension controller.
2. Driven by connective 3 A.C motors, which able to control tension on air shaft and linear speed on differential shaft.
3. Rewind type is as center winding, the rewind pressure roller will automatically keep moving away from rewind shaft when the finished roll O.D is getting bigger.
4. Equipped different shafts to make tension on each roll the same even when the web thickness is not the same.
5. Equipped with shear cutter, which is suitable for slitting various materials and trim unit is as strong blower.

### Optional Parts:

1. Unwind Pick-Up Lift : For loading jumbo roll on the machine quickly and time saving.
2. Shaftless Unwind Base : Separated type with hydraulic core chuck can be equipped for efficient and quick performance on jumbo roll change.
3. Connected Splice Table : Splicing materials smoothly in order to decrease production loss.
